(54) Systems and methods for providing geographically distributed creative design

(57) Systems and methods for providing geographically distributed creative design are disclosed. In one embodiment, a system is provided for providing directional audio in a video teleconference meeting. The system comprises a high resolution display, an interactive stylus and a plurality of sensors that track movement of the interactive stylus over the high resolution display. A creative design controller is configured to display detailed text and figures and display sketches of context in response to movement of the interactive stylus over the high resolution display.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 11 19 4270

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
